

Hung on Food!

An app that finds specific food in a specific area for a new traveler in the area, a businessman on a business trip to another state/country and any other person who wants to try a specific food.

Find great food cuisines and places to find them.

Hung on Food! Is a food locator application. When the user enters a specific cuisine and select the area or just use a locate me option, the application will find available places in the 30-mile radius of the location. This application also helps users to add favorite food and favorite restaurants.
